

PIPE INSPECTION & REPAIR EXPERT PIPE SONAR INSPECTION SYSTEM

X4

- Field generation of interpretation report
- Compound detection technology
- Multi-view linkage display

TV & Sonar together system

We made an innovation based on the original test. Our sonar machine mainly contains Sonar probe、Rotating lens、Cable reel and Probe floating. Main controller with 12.1" industrial LCD screen, anti-glare function, visible under strong sunshine. Perform both Sonar and TV inspections in one run, sonar float transport platform.

PRODUCT SPECIFICATIONS

Sonar probe total length :485mm, Diameter:70mm

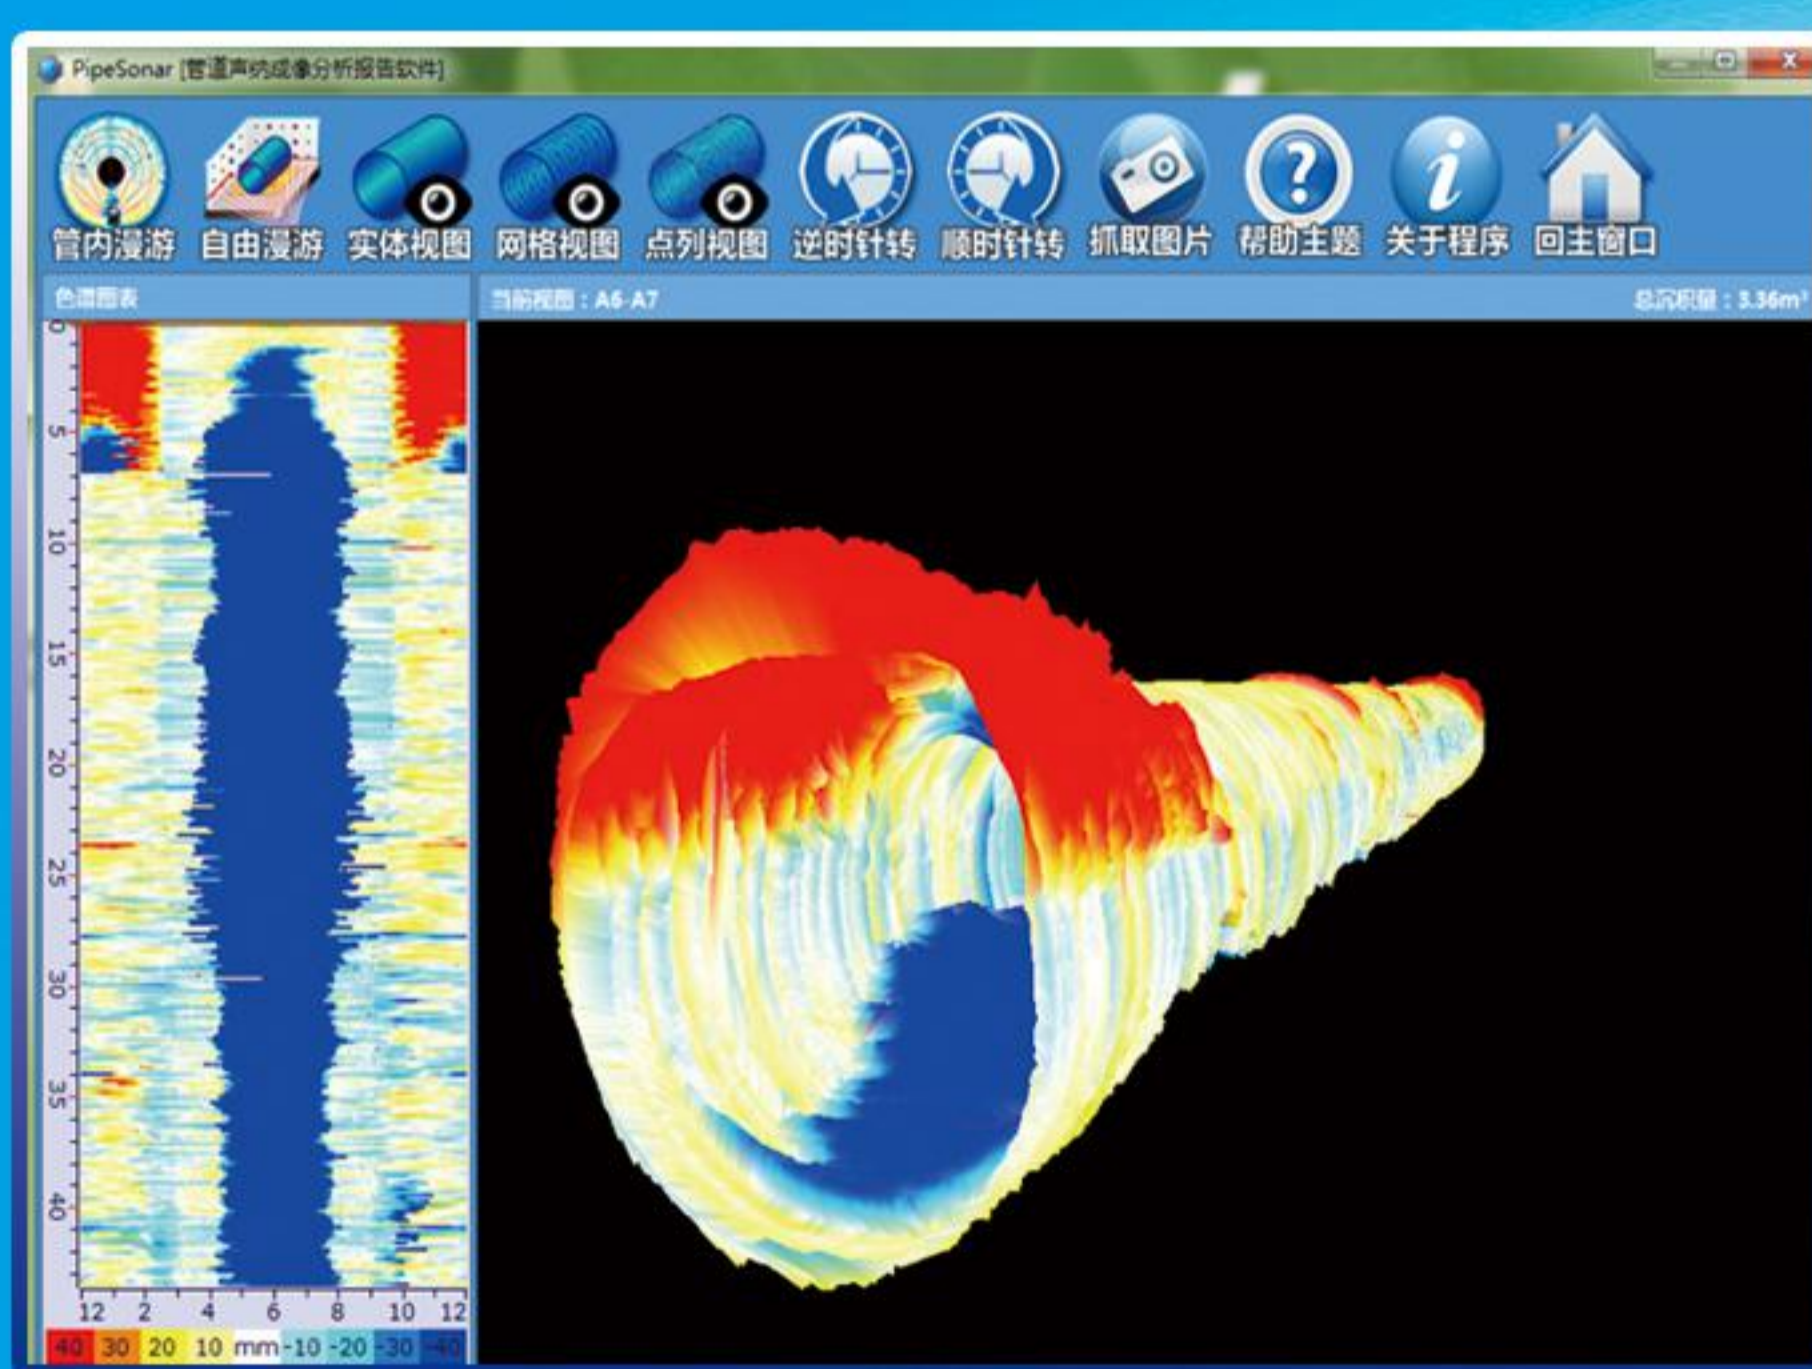

Max pipe range: 6000mm

HD pan & tilt camera Standard 150 meters :electric cable reel or manual cable reel

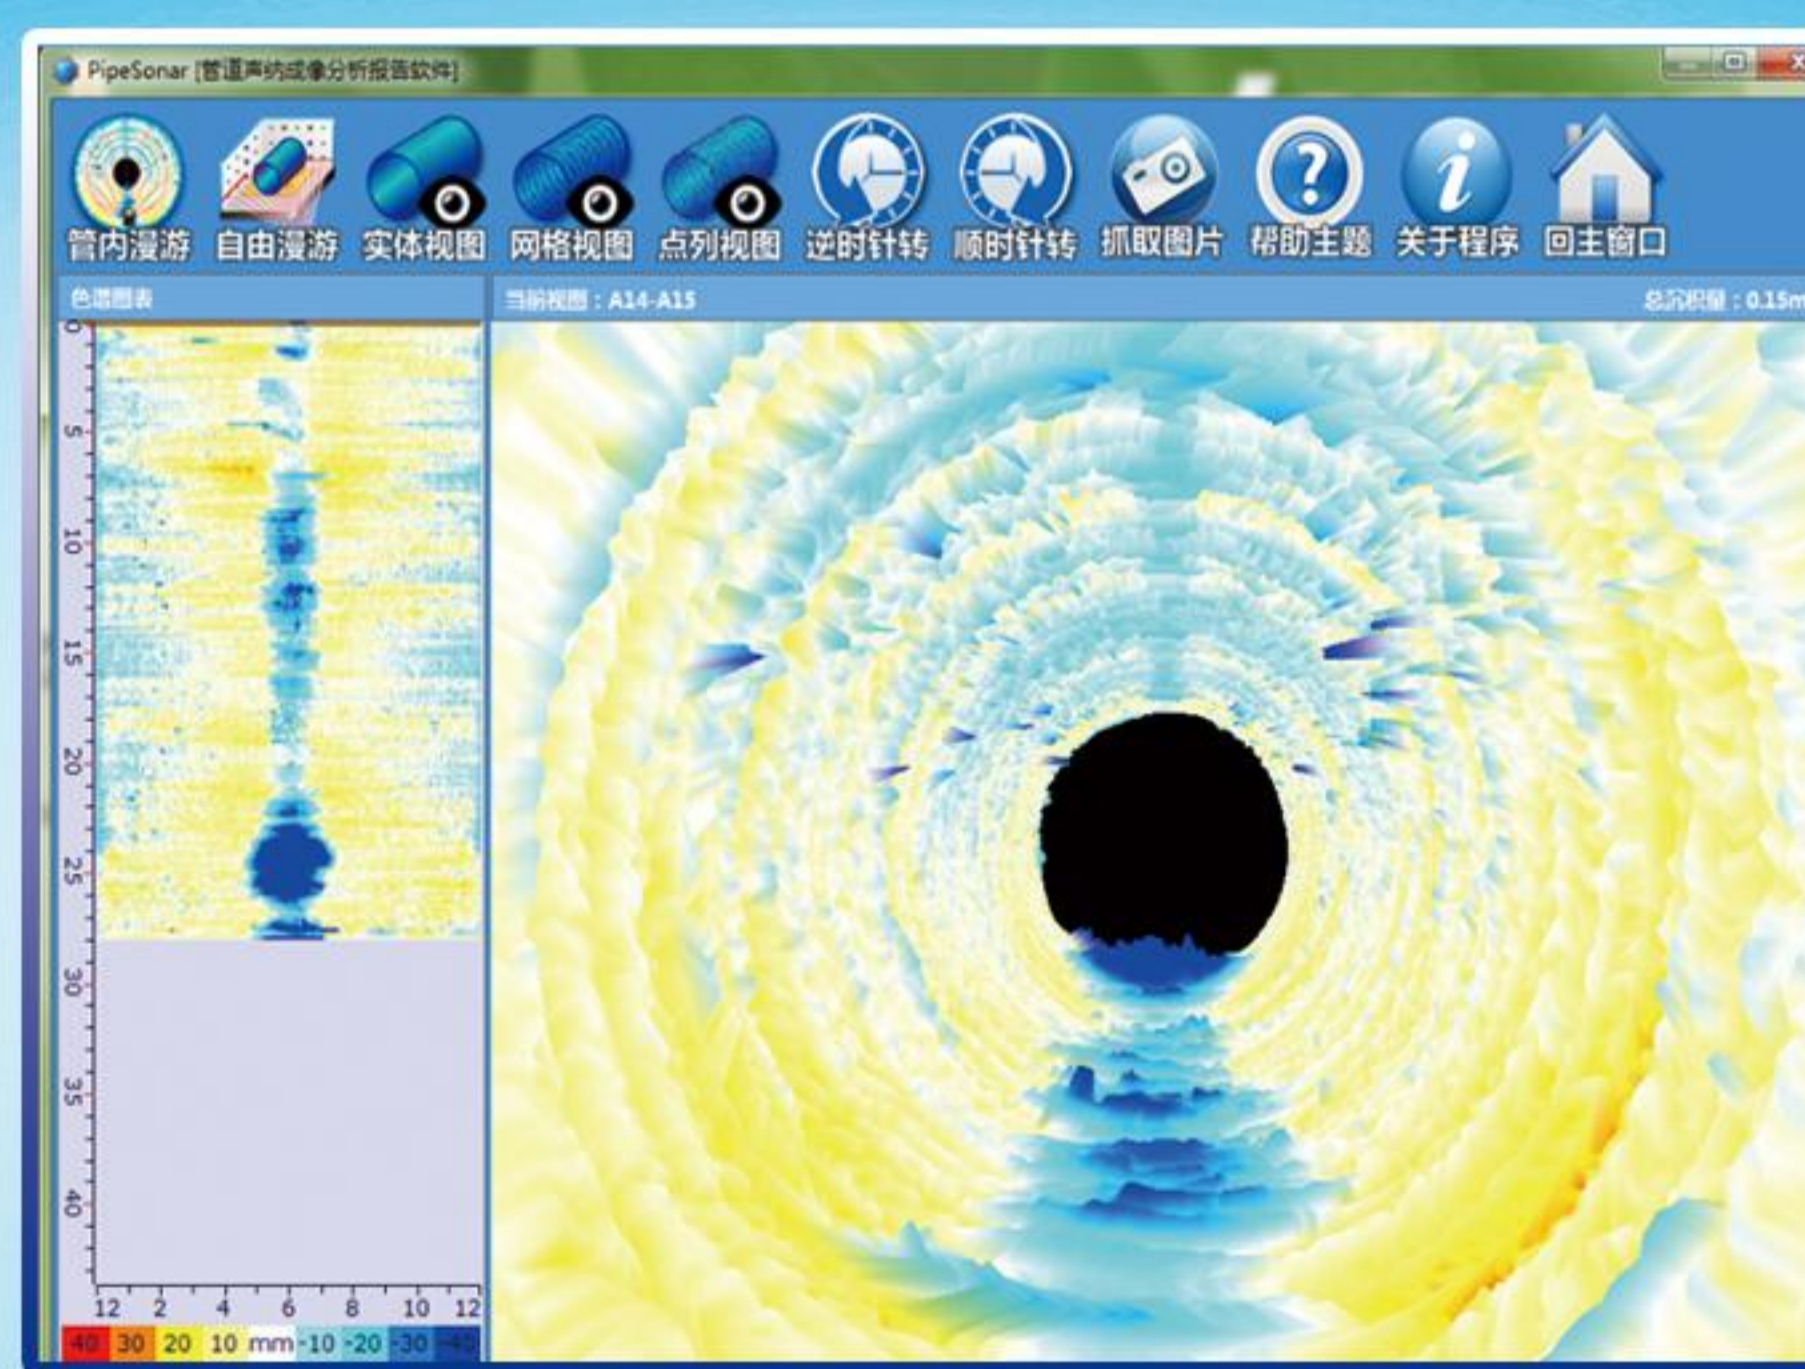

Probe float material:UPVC DN range:500mm-6000mm

Probe float size:1005*458*285mm
